Lloyd was a native of Oakland, aged about 22 years. He had lived in Nevada City for more than two years and made many friends in his contacts with customers at the store.

He is survived by his mother and brother, Eddy Leong, Chinese merchant, now in China, is his brother.

STRONG PIPE CHAINED UP IN BARBER SHOP

Louis Kopp, popular baker of Nevada City, is around town sporting a new pipe these days. On a hurried trip to Larsen's barber shop several days ago, he forgot his old faithful. Shortly after his departure, the barbers smelt strong tobacco and heard a rusling noise. It was the pipe. It has been chained up for a whole week awaiting Louis' return for another shave. An impounding fee will be claimed.

VESTRIES RAP OVER ZEALOUS GAME WARDEN

Relative to the news items appearing in the press of a fine being imposed on Rev. C. F. Washburn, Rector of Trinity church, in consequence of his use of a citizen's hunter's license instead of an alien license, the clergyman last Saturday evening called a special meeting of the church vestries of Grass Valley and Nevada City composed of C. E. Clinch, Senior Warden; R. H. George Junior Warden; L. A. Prisk, Treasurer; P. W. Michell, George A. Shebley, W. H. Butler, Cliff R. Cundy, Elton Bennetts, and of Nevada City, E. T. R. Powell, R. L. P. Bigelow, W. M. Gracey, W. W. Waggoner, Wm. Richards and R. W. Rodda.

Mr. Washburn's explanation of the incident and the action of the vestry thereon appear below:

To the Vestry, Emmanuel Church, Grass Valley: Gentlemen: On Wednesday of last week Mr. Earl Hiscox the Game Warden, interviewed me regarding my using a citizen's license to shoot deer. I explained to him that due to wrong advice I had let my first U. S. papers run out. The Warden expressed himself as satisfied that I had acted in good faith, had no intent to deceive or defraud anyone, but said he must act on the technicalities of the law.

Judge Smith of Auburn listened to my evidence, expressed himself as finding no intent to deceive or defraud, but said he was powerless to do otherwise than to impose upon me the minimum fine of $25.

I wish to state, gentlemen, that in the publicity given to this matter, the statement that it was brought out in court that I am a citizen of Canada is not true. This was not mentioned, and I do not think I am a citzien of Canada. I came to U. S. in 1922 and took out first papers in that year. I was told I could get second ppaers in five years. I admit carelessness on my part, for I overlooked getting these papers in the year 1927—but with an election on in 1928 in St. Johns, Michigan, I proceeded to get these papers, but was informed that I was too late. It was not until recently that I learned from Judge Tuttle that the Judge in Michigan gave me erroneous information and that I was entitled to second papers up to seven years after taking out the first, and that all I can now do is to go through the whole five year probationary period again.

I have been for some little time in correspondence with the Judge in Michigan, who wrongly advised me, trying to get final papers without waiting another five years.

If this Judge had known the law, I would have been a full fledged citizen of the United States several years ago. I hardly think that the government of Canada looks upon any man as a citizen of that country after taking out his first papers in the United States and swearing allegiance to the U. S. flag.

I am sorry that I deemed it necessary to call you together tonight, but in view of the matter having become publicized an explanation from me was due both to you and the public. I feel that I was in no manner to blame for the unfortunate incident.

Sincerely yours,
CHAS. F. WASHBURN,
Rector, Episcopal Church, Grass Valley and Nevada City.
September 29, 1934.

REPLY OF VESTRY

We have considered very carefully the Rev. Charles F. Washburn's statement and see no reason why he should have been disturbed in this matter, and we regret that the Game Warden saw fit to place the reverend gentleman in an unfavorable light before the public. Therefore be it—

RESOLVED, by members of the Vestry, That we appreciate the Rev. Mr. Washburn's ministerial activities and feel that his sportsmanship has been very helpful, and his interest in it very commendable.

Signed by the Vestry of Emmanuel Parish of Grass Valley and Trinity Parish of Nevada City.

Fire Chief Ott Tells of Long-Dead Rivalry

The Northern California Firemen's Association Convention, held in Grass Valley last Saturday and Sunday was declared a big success by all who attended. The convention ball on Saturday night was attended by between two and three hundred couples, who enjoyed the entertainment before the ball as well as the dancing.

The actual business meeting of the convention took place Sunday in the American Legion Memorial Hall. At the convention, the delegates each stated the problems in their own localities and remedies were offered and discussed. Guy Lukens, chief of the Auburn Fire Department, presided over the meeting. Sunday night a banquet was given which 150 delegates and their wives attended. Congressman Harry L. Englebright, State Forester M. B. Pratt, and R. L. P. Bigelow, and many others gave talks. Chief E. J. N Ott, of the Nevada City Fire Department, gave a talk on the ancient an.d now dead rivalry between the Nevada City and Grass Valley fire departments and told of the time when there was only one Republican and fifty Democrats in Boston Ravine Chief Ott described the fire in which the National Hotel burned in Nevada City and the fire which destroyed the Holbrook Hotel in Grass Valley.

Ott states that the Grass Valley firemen and Chief Daly deserve great credit for the fine arrangements made for the convention. The delegates visited in many mines and were entertained throughout their visit. The wives of the Grass Valley firemen entertained the wives of the visiting firemen very hospitably and completely.

SCHOOLMATES MEET AFTER FIFTY YEARS

Mr. and Mrs. William Kervin were treated to a surprise visit Sunday when Mr. Gus Bass, of Roseville, drove up to renew an acquaintance with Mr. Kervin. They were schoolmates in Grass Valley when boys 50 years ago and this was their first meeting. Several happy hours were spent in reminiscences of the intervening years.

Mr. Bass has been in the employ of the Southern Pacific at Roseville for many long years, while Mr. Kervin has spent his years in one position to another in mining, always advancing in his line of work. Mrs. Bass accompanied her husband.

STRAW BALLOT FAVORS HAIGHT

LOS ANGELES, Oct. 1.—What appears to be the most comprehensive and most carefully arranged straw vote yet taken on the California Governorship has just been completed, and its results have just been studied and analyzed here. The figures show that.

In a three-way contest between Upton Sinclair, Democratic candidate, Frank F. Merriam, Republican candidate, and Raymond L. Haight, Progressive-Fusion candidate, Sinclair would win by a very comfortable margin; Haight would be second by a handful of votes, and Merriam would be third. The exact tally certified by oath follows:

SINCLAIR	7225
HAIGHT	4902
MERRIAM	4844
Total votes	17,101

In a two-way contest between Sinclair and Merriam, the Socialist-Democrat author would be an overwhelming victor, winning by more than 2-to-1, thus:

SINCLAIR	11,641
MERRIAM	5,360
Total votes	17,101

In a two-way contest between Sinclair and Haight, the young Progressive-Fusionist would be the winner and the next Governor of California, the tally being:

HAIGHT	9,749
SINCLAIR	7,352
Total votes	17,101

The natural inclination is to dismiss all political straw votes as propaganda—barring, of course, those wonderful canvasses of the Literary Digest. So there arises, concerning this present poll, these questions—In whose interest was it taken? In what manner was it taken? Who took it?

Here are the answers: Dr. Jean A. Breauxea (pronounced "Brozea") well-to-do Glendale dentist interested in governmental affairs, determined to learn for himself, if possible, the actual political feeling in California right now, Breauzea declares himself non-partisan. He made an arrangement with a friend, manager of the Globe Circulation Company, an organization whose business is getting subscriptions for magazines. The arrangement was this:

Each of the circulation company's 110 field solicitors was provided with a pad of printed ballots setting forth the candidates' names and listing them in the three-way and two-way contests. The ballots were offered first, before any talk of magazines was put forward, in order to engage the interest of the possible subscribers in homes and offices. It was an ingenious "approach" for the solicitors, and they sold many magazines because of it.

(Each possible subscriber was requested to mark the ballot secretly, fold it over and then drop it into a sealed container which the solicitor carried). The solicitors made it clear that they had no interest in any one candidate.

"The ballots were taken from the containers and counted in the presence of myself, officials of the circulation company and a committee of disinterested outsiders, and the results were exactly as I now make them public," said Dr. Breauxea. "They give a genuine cross-section of California's political thought. The solicitors covered every part of California. Incidentally, most of them are non-residents of the state and don't care who's the next Governor."

Dr. Breauzea then made a lengthy affidavit setting forth the manner and results of his straw vote, incorporating all the statements made here. His announcement of the canvass, and his affidavit, naturally enough, received the closests attention of those in charge of Raymond L. Haight's campaign, because the figures seemed to bear out their long-continued assertion that Merriam could not possibly defeat Sinclair, while Haight could.

"Every inducement has been offered Haight to withdraw from the race," his managers said today. "He is not going to, of course. He is in to the finish. If there is to be any withdrawal, let Mr. Merriam withdraw. In order to beat Sinclair, the successful opponent must win a great number of votes from dissatisfied Democrats and dissatisfied Republicans. Merriam can't possibly do that. Haight unquestionably can. This straw vote shows the true feelings of a typical, diversified group of California voters."

There were visitors from Alleghany, Forest, Downieville, Nevada City, Grass Valley, and the Alaska and True Grit mines. They enjoyed the delicious banquet and spent several hours in dancing and social converse. Among the visitors present were: Mr. and Mrs. Fred Develey, Mr. and Mrs. Carl Johnson, Mr. and Mrs. J. J. O'Connel and his brother, Mrs. Hardie, Victor Gates and Pat Shefford.

MRS. J. V. WOOD RETURNS FROM THE PHILLIPPINES

Mrs. J. V. Wood has returned to Nevada City from Baquio, Phillippine Islands, where her husband is employed by Benquet Consolidated Mining Company in the Balatoc mine. She states that 2,000 natives are employed in the mine and that the rate of production at the present time is about $10,000,000 a year. Ore reserves are sufficient for five year's operation. Mr. Wood is divisional foreman and associated in the same property with him are Mr. Duggleby and George Scarfe, both well known here. Mr. Wood was formerly employed at Alleghany.

YELLOW JACKETS WILL PLAY GRANT SATURDAY

The Nevada City Yellow Jackets will meet the Grant Union High School eleven next Saturday at Cashin's Field. It is expected that the game will be close and hard-fought. The weaknesses showed by the local eleven in their scoreless tie with Biggs last Saturday will be ironed out and the running attack will be far more effective, according to Coach Bev Barron.

Last Saturday the locals looked good in the first half, but seemed to lack the punch to put over a score. Biggs was clearly outclassed, but the Yellow Jackets could not quite push the ball into pay dirt. They looked better than they did against Oroville two weeks ago. The team work was smoother and the tackling was surer, but the blocking still leaves something to be desired. This will no doubt be improved before the game with Grant.

HUNTING PARTY KILLS BIG BUCK AND LION

Robert Gates, local sportsman, brought in the first mountain lion of the season Sunday, when he killed a yearling lion that weighed about 35 pounds. It was killed on the Washington Ridge where larger lions have been seen several times this season.

Sargeant Huson, who was in Mr. Gates' party, killed a three point buck.

TEMPERANCE NEEDED

(Contributed)

The eighteenth amendment came into existence because the American public believed that no step was too drastic to outlaw the evils that had appeared in the liquor problem. Millions of thinking American citizens, who were not "dry" in the sense of believing it a crime to take a drink, had seen the power of the saloon appear in politics, degrading city and state government, and had watched intrenched interests successfully violates both the letter and spirit of the laws that then existed to control the sale of liquor.

The eighteenth amendment was repealed by this same thinking public when it became apparent that the evils existing before were magnified, rather than lessened. The ends of temperance were not served, the gangster came into his glory, and million-dollar bootleggers became as politically powerful as their legal predecessors had in the old days.

Today the American people want temperance. They want the liquor traffic to be adequately controlled. They will not again countenance any illicit alliance between government and liquor interests. We are passing through an experimental period—and if present laws are inadequate, other and harsher measures will be brought into play.

To promote temperance—which means the elimination of drunkenness and license—is the duty of every citizen. It is likewise the duty of those who make and sell liquor—in addition, it is simply good business so far as they are concerned. The American people are not fanatical either for or against liquor per se. They are interested in eliminating abuses of the present as well as of the past, and they intend to succeed.

GOLD STANDARD FOR WORLD IS ODDIE FORECAST

SAN FRANCISCO, Sept. 30.—Pleading that no taxes be levied against the production of gold and that everything possible be done to speed up and increase the output of gold to meet the credit and currency expansion of the world, Tasker L. Oddie, former United States Senator and president of the Gold Mining Association of America, speaking before the American Mining Congress meeting, also urged that no premature attempt be made to restore the gold standard. Reciting that efforts of the gold standard countries from 1923 on, to maintain their position, developed "an overstimulated confidence and sense of security," he said that the attempt to restore the gold standard proved to be premature and the economic crisis of 1929 followed.

"It is to be hoped," said Oddie, "that no premature attempts will be made to restore the gold standard, and that at the proper time the world will adopt a monetary system, a modernized gold standard, more flexible and better designed to meet the expanding needs of international trade and commerce."

The efforts of gold bloc countries in attempting to maintain their standard, he said, had retarded reflation and recovery. Suspension would expedite reflation to a more satisfactory level and pave the way for an early and favorable international consideration. Further he said:

"Care will have to be exercised that the new world monetary system shall not be adopted before a large number of countries are prepared to carry out its terms. A failure to put a new gold standard in successful operation when promulgated and adopted would result in an economic relapse, carrying the world to still deeper rut of depression and from which it would take years to recover.

"World monetary reform is involved in so many political as well as economic considerations that great uncertainty exists regarding the future monetary status of gold." For that reason he declared gold mining is taking advantage of the favorable price to mine and mill extremely low grade material at a profit, but even at that, the actual gold ouput has declined. Until the world monetary status of gold is more definitely determined by international agreement, capital will be cautious in the mining and treatment of ores that can be handled profitably on the basis of lower gold prices. Continuing, he said:

"On the basis of current gold prices, freedom from all taxation, national and local, and with the assurance that reflation will not rise above the 1926 level of commodity prices, the world's mining industry should be able to double, if not treble, the number of ounces produced in 1933, and thus insure in the course of a few years an enlarged output of newly mined gold fully to satisfy the world's increasing requirements for new currency and new credit. In the interest of the maintenance of any form of gold standard which may be internationally adopted, and the economic welfare of the peoples of the world, the gold mining industry, as a public utility of the first importance, should be made exempt from all taxes of whatever character, so that the lowest grade gold ore can be mined and milled at a profit."

In speaking of Federal Mining loans, Mr. Oddie said that applications must first be filed with the Reconstruction Finance Corporation at Washington, D. C. Those found meritorious, will then be sent to the Corporation's representatives and engineers on the ground for technical investigation. Concluding, he said, "Much real benefit will come to the mining industry and to our country in many ways from this wise new provision of the law."

If you will scald enough tomatoes to use for slicing or salad for several days at one time, you will find it very convenient and a time saver at meal time. Scald the tomatoes but not long enough to break the skin. Cool, place in the ice box and at any time for the next few days the skin will will slip off with a seconds labor.

"SHE LOVES ME NOT" TONIGHT AT NEVADA THEATER

Tonight and tomorrow the Nevada Theater presents Bing Crosby in the mad musical romance, "She Loves Me Not," from the New York stage hit of the same name. The show is a riot and again Bing scores with his rendering of some new hit tunes. Some of the songs he sings are, "She Loves Me Not," "Love in Bloom," and "Straight from the Shoulder, Right from the Heart."

"She Loves Me Not," is the mad, mad story of a Princeton senior, played by Bing, who had a chorus girl, dressed like a girl, hidden in his dormitory, a sweetheart swooning at the window, and a snooty fiance, furious at the door. He tries to keep each of the women from finding out about each other and the Dean from finding about all three.

Miriam Hopkins plays the role of the chorus girl escaping from the police and Kitty Carlisle takes the part of the Dean's daughter.

Joe E. Brown, the famous awning-lipped comedian, will be back in town Wednesday and Thursday at the Nevada Theater in his latest First National comedy, "The Circus Clown."

Joe is now back to his first love, for he started his career at the age of nine with a circus and traveled with it for several years before he gave it up to become a baseball player and later a theatrical and screen performer.

The circus is used throughout as a background for the hilarious stunts of the picture, which, however, has its own well-defined plot and romance.

Patricia Ellis has the leading feminine role opposite Joe, while others in the cast include Dorothy Burgess, Donald Dilloway, Gordon Westcott, Charles Wilson, Ronnie Cosby, Spencer Charters and Bobbie Caldwell, as well as a score or more of famous circus performers.

FUTURE OF THE NRA

General Johnson's resignation as head of the NRA and Roosevelt's acceptance of the same, would seem as a further trend on the part of the Government toward still more liberal policies. The fact that he had recently antagonized Justice Brandeis of the Supreme Court together with the fact that he had deeply antagonized organized labor in the recent textile industry strike and that he was at odds with Secretary Perkins, made it impossible for him to continue in his position.

Under Johnson's leadership the NRA has made an extremely creditable showing. Until more exact figures are compiled, the public perhaps has not realized how much the NRA really has accomplished. Labor has benefitted greatly, hours of work having been reduced throughout all industry and wages having shown a substantial rise but not however, in proportion to the increased profits shown by corporations. Since the initiation of the NRA program, industrial corporations show gains of 600 per cent in income. To whosoever will view such a picture in its true light, such a situation is impossible. With the cost of living rising and with such an unequal portion of the national income being returned to capital, such a situation of long standing must again result in diminished consumption with its corresponding business stagnation.

It is difficult to believe that organized business in its attack on Roosevelt and in its demands that he make his future policies more clear and in its further action on exerting pressure on Representatives by means of pressing them to state their position in regard to economic policies, will have much effect on the President's future action.

A tremendous source of support behind Roosevelt and his liberal policies are the churches. All religious denominations, Protestant, Catholic and Jewish, have endorsed his policies and in many cases have gone to far greater lengths in denouncing the old system of things that have brought on the present situation. With the further trend of public sentiment toward liberalism or radicalism which is so easily discernable, Roosevelt is too astute a politician to be easily stampeded by empty threats.

Pres-to-Logs!
"THE MAGIC FUEL"
FOR FIREPLACE, FURNACE, HEATER AND WHEREVER SOLID FUEL IS USED
Pres-to-logs are the ideal fuel. They are clean; easily handled and stored; they make no soot and little smoke; form almost no ash; make no sparks; burn long and steadily; give great heat; and furnish their own kindling.
Each log measures 4 by 12½ inches and weighs about 8 pounds. Pres-to-logs are made by compressing dry ground wood under the tremendous pressure of 10 tons per square inch. This welds the particles into a solid log more than 3 times as dense as wood.
It's easy to start a fire with Pres-to-logs. Just split them crosswise into wafers for kindling, or into any lengths desired.
Pres-to-logs are economical. Almost nothing is wasted in smoke and ash. Very little draft is needed. They burn slowly and steadily, giving forth an intense heat.
The machine, which makes Pres-to-logs under such terrific pressure, was perfected only after long and costly experiment. It is fully patented. There is nothing like Pres-to-logs.
